Mr Eugene Conroy  
Managing Director  
Eta Projects Ltd  
Bear Lane  
London  
SE1 0UH

26 January 2011

Dear Mr Conroy,

I confirm that the Academy has awarded Eta Projects an Engineering Professional Development Award through its 2011 scheme in recognition of their training commitment to the engineering profession.

The most important resource that any innovative and forward looking company has is the knowledge and skills possessed by its employees. For any company to compete successfully and grow in the challenging business environment and global marketplace of the 21st century, it must strive to become a world-class performer. One way of creating the necessary competitive advantage is to ensure that the knowledge and skills flowing into it from its employees reflect the very latest cutting-edge technology and business practice.

Eta Projects has demonstrated an innovative and forward-looking vision towards the development of the engineering profession and the Academy wishes them the best of luck in their future development

Yours sincerely,

Ian J Bowbrick  
Head of Professional Formation

The Royal Academy of Engineering  
promotes excellence in the science,  
art and practice of engineering.
