

Electrical Distribution and Switchgear Site Familiarisation Training Course – Eta-06

COURSE OBJECTIVES

The course is designed for Authorised Person (HVAP & LVAP) who wish to familiarise themselves with the electrical distribution equipment present on their site and learn the correct operational procedures to operate these systems safely.

It is a mandatory requirement that the Authorised Person (AP) is familiar with the equipment for which they have responsibility.

COURSE CONTENT

- Initial site visit to collect site information.
- Production of relevant manuals on the High Voltage (HV) equipment and Transformers.
- Production of single line diagrams (if required).
- One day part classroom and part site based training course covering the following:
 - Types of High Voltage (HV) Switchgear used on site,
 - Insulating mediums advantages and disadvantages,
 - Any current Operational Restrictions,
 - Transformer connections and maintenance requirements,
 - Types of protection systems present on site,
 - High Voltage (HV) earthing methods,
 - Low Voltage (LV) earthing methods,
 - Site electrical security, redundancy and resilience,
 - Control of contractors,
 - Non-IP2X equipment.

The course can either be used as pre or post Authorised Person (AP) training.

BENEFITS OF THE COURSE

- Can be used as a site familiarisation element to High Voltage Authorised Person (HVAP) Authorisation.
- Can be used as an independent site health check.
- Helps ensure compliance with Electricity at Work Regulations Competency check.

WHAT DO I NEED TO BRING TO THE COURSE?

Nothing as a comprehensive set of hand outs will be issued during the course.

DURATION OF THE COURSE

The duration of this course is one day for training and one day to get familiar with the site.
