COURSE CONTENT

- Electricity at Work Regulations 1989.
- JSP 375 Vol 3 Chapter 3 Safety Rules and Procedures.
- High Voltage (HV) equipment including switchgear and transformers.
- Substation operation and maintenance.
- High Voltage (HV) Distribution systems, ring and radial system operation.
- High Voltage (HV) Protection,
 - HRC Fuses,
 - Time limit fuses,
 - Common Relays.
- Completion of records and documentation, including:
 - Permits to Work,
 - Sanctions for Test,
 - Limitations of Access.
- Identification and location of cables.
- High Voltage (HV) Distribution System Grading.
- Testing/commissioning of High Voltage (HV) electrical distribution equipment.
- Authorised Person (HVAP) roles and responsibilities, and safe working procedures.

The course concludes with a personal assessment and our training consultants will produce an individual pathway to enable the attendee obtain and maintain their appointment as Authorised Person (AP). The pathway document will be sent to the delegate's Authorising Engineer (AE).

BENEFITS OF THE COURSE

- Legislative compliance and understanding.
- Improved communication, documentation and enforcement of safe working procedures.

WHAT DO I NEED TO BRING TO THE COURSE?

Nothing as a comprehensive set of hand outs will be issued during the course.

DURATION OF THE COURSE

This is a ten day course designed to be delivered on site with a maximum of ten delegates.
