

High Voltage Authorised Person to JSP 375 MOD Refresher Training Course – Eta-16

COURSE OBJECTIVES

This course is designed for Authorised Persons (HVAP) who seek re-appointment as High Voltage Authorised Person (HVAP) to JSP375 Volume 3 chapter 3.

Delegates will be refreshed on the essential knowledge to continue to undertake Authorised Person (HVAP) duties to maintain compliance with the Electricity at Work Regulations 1989 and the JSP.

COURSE CONTENT

- Electricity at Work Regulations 1989.
- JSP 375 volume 3 chapter 3 High Voltage (HV) Safety Rules and Procedures.
- High Voltage (HV) equipment including switchgear and transformers.
- Substation operation and maintenance.
- High Voltage (HV) Distribution systems, ring and radial system operation.
- Completion of records and documentation, including:
 - Permits to Work,
 - Sanctions for Test,
 - Authorities for Access.
- Types of protection and applications of High Voltage (HV) protective devices.
- Identification and location of cables.
- Testing/commissioning of High Voltage (HV) electrical distribution equipment.
- Authorised Person (HVAP) roles and responsibilities, and safe working procedures.

The course concludes with a personal assessment and our training consultants will produce an individual pathway to enable delegates maintain their existing Authorised Person (AP) appointment. The pathway document will be sent to the delegate's Authorising Engineer (AE).

BENEFITS OF THE COURSE

- Legislative compliance and understanding.
- Improved communication, documentation and enforcement of safe working procedures.

WHAT DO I NEED TO BRING TO THE COURSE?

A comprehensive set of hand outs will be issued during the course. It may be beneficial to bring a copy of the JSP.

DURATION OF THE COURSE

This is a three day course designed to be delivered on site with a maximum of six delegates.
