COURSE CONTENT

- Electricity at Work Regulations 1989.
- BAA/ JSP 375 Safety Rules and Procedures.
- Completion of records and Documentation, including:
 - Permits to Work,
 - Sanctions to Test,
 - Limitations of Access,
- Authorised Person (AGL) roles, responsibilities and safe working procedures.
- Constant current regulators.
- Primary series loop circuits.
- Precision approach path indicators.
- AGL fault location principles.
- AGL layouts and alignments.
- Operational principles and controls.
- Practical exercises and assessments.

The course concludes with a personal assessment of each delegate and from this our training consultants will produce an individual pathway to achieve and maintain Authorised Person (AP) Authorisation. This document will be sent to the delegate's Authorising Engineer (AE).

BENEFITS OF THE COURSE

- Legislative compliance and understanding.
- Informs delegates on the safe working principles for working on primary series loop circuits.
- Recap of AGL principles.
- Improved compliance with safe systems of work.

WHAT DO I NEED TO BRING TO THE COURSE?

Nothing as a comprehensive set of handouts will be issued during the course.

DURATION OF THE COURSE

This is a three day course designed to be delivered on site to a maximum of six delegates.
